HARBISON-WALKER

The Standard of Quality

Harbison-Walker Coke Oven Brick What Does It Mean?

It Means MAXIMUM SERVICE.

The same careful selection of raw materials, the same attention to every detail of manufacture that has made the Harpison-Wilker product the standard for the Blast I urnare the Open Hearth, and the By Product Oven characterizes their output for the Rectangular and the Beehive Oven

It means delivers when you want it, the filling of every order on a personal basis

It Means MINIMUM COST.

Look up NOT your price per thousand Blick but your ie fractories' COSTS for repairs, (including reakage in transit and unloading) per ton of Coke A few Linutes with your cost shects will show the best is the cheapest Let us take it up with you in detail.

MINE BUREAU BILL PASSES THE SENATE.

Congressman Huff Gets Pet Measure Through This Week.

CONFERREES NOW

And Westmoreland Congressman Wil Likely Be Successful in Retaining Amendments Adopted in the Senate Director Will Get \$6,000.

passed the Senate Monday after hav ing passed the House early in the ses-sion Congressman George F Hulf, of Westmoreland and Butler counties, of Westmoreland and Butter counties,
who is chairman of the House Com
ruttee on Mines and Mining seconded H Watkins, William Ne J L Nick the passage of a similar bill in the low House last Congress, but it failed in the Senate He surreduced the bill D Simpson John Sman, Harold Un anew in the present Congress and has worked for it

The only serious opposition to the Collins I bill was from Sena or Root of New Fayette York who claimed the bill would in Mier Jr terfere with State rights. The bureau is to investigate all conditions our rounding mining with a view of im-proving them from all standpoints. The testing station of the Geological survey at Pittsburg is to be a part of

The bill row goes to the Conferees and there Congressman Huft will make a stand to have retained in it the ameniments adopted in the Senate. The head of the Bureau will get \$6 000 a year and will have the title of Director of the Bureau of Mines.

RAILWAY WAGE ADVANCE

Figures Given Out by President Brown

NEW YORK May 4—The railway wage advances, already made of the year, are entire country. This is the figure given by President Brown of the New York Central. It includes of course, many advances the details of which have not yet here. have not yet been s tiled Calculated on the Interstate Com

merce Contribution at thetics as a basis the wages paid to railway employed under the new scale will amount to \$1,227,2303,000 a year. This is arrived at of estimating the operating expenses of the present fiscal year from the monthly reports now available applying the percentage of labor co t to total operating expenses in 190%. wages this year

The \$1 227 233 000 which, it is esti mated, will be paid out to employes annually under the new scale, compar-ed with \$1.072.886700 in he fishal year 1907 the year which holds the record for the volume of railway bis

PREPARING THE PLANT.

Unique Plan of Shicoing Coal To Southwest Plant No 3

Sharon Furrace Out at the So tawes Ye is plant of the Hell furnace of the Republic Online of tracks and electing bins there for the shuring of coal to this place of the shuring of coal to this place of the shuring of the shuring of coal to this place of the shuring of the shuring of coal to this place of the shuring of Extensive survey ng has been done for the shirting of coal to that place for firing part of the plant. One plan was to sink a shart just beneath the P. R. railroad tracks and drop the coal from the ears through to the mine, a distance of about 50 or 60 feet and then again but it to the surface at the sacet by t tace at the shaft, but the moject would be too expensive in hoisting the coal to the tipples. Another lian was to erect hims just back of the ovens the coal being stoled there in sufficient quantities as to cause no celar in the coal stoled there in sufficient quantities as to cause no celar in the coal stoled the coal stoled there in sufficient quantities as to cause no celar in the coal stoled other operations and also in cale some accident would occu to the hoisting, n achinery the latter would not affect that part of the supply system

When the plant came into control coccoccoccoccoccoccocc When the plant came into control of the Fritz company a slope or rather drift opening was made nerr the shuff so that coal could be hauled by rope system from the cast side of the rail depreciating his property an use of the road the soul then owned by the Frick people and since that time coal has been hauled from that opening to fire the plant.

to the place dies before qualification, is rather absurd on its face. It is evident that there was a vacancy at the expiration of Sheatz's term, and the Constitution declares that the Governor "shall have power to fill any va-

fairs or Superintendent of Public In-

In any event, Treasurer Sheatz would manifestly have been the last person the Constitution contemplated for filling the vacancy caused by the death of Treasurer-elect Stober for excellent reasons of public policy

B. & O. PASSENGER SERVICE. The announcement that the Baltiheat.

The announcement that the Balti district has reached the injunction opening of new fields was discouraged, opening of new fields was discouraged, ostensibly on the ground of over-production, but often because of these Connelisyfile householders, and they will not seek to injunct to a district has reached the injunction more & Ohio Railroad Company will stage when a strake reaches this more & Ohio Railroad Company will stage when a strake reaches this more & Ohio Railroad Company will stage when a strake reaches this more & Ohio Railroad Company will stage when a strake reaches the injunction of expending the first open the injunction of the production of modern equipment, and will in all respect to inform themselves modern equipment, and will in all respect to instance that prices of natural more & Ohio Railroad Company will stage when a strake reaches the injunction of the injunction of more & Ohio Railroad Company will stage when a strake reaches the injunction of the injunction

ways been more or less extravagant. largely confined to tracks and termi It is only within recent years that in-telligent and energetic efforts have been made toward the utilization of the old nassenger coaches remained. The

promised to be a pillar of strength, and what did actually and materially serve to advance coke prices.

However, there was at no time any great fear of serious industrial suspension. Both sides were at all times confident of settling the strike on a satisfactory basis, and this feeling undoubtedly Tacilitated the settlement; besides, there was a large quantity of coal lying in the Pittsburg harbor for commenced much further than the exhipment South which had been held awaiting developments with a view to devocing it to home consumption. This coal is already on its way down the river on a good stage of water. The confident of coking the product of the way of the commenced in the confident of cooking to the product possible to be taken. Various experiments have been made looking toward the utilization of the waste gases, heat and ashes incident to coking, but these have not advanced much further than the experimental stage.

The chief obstacles to progress in this direction seem to be:

1. The popular projudice of consumptional in the Connellsville coke trade, now left upon its own resources. Faces of the company. The earnings responded to its new policy, in all departments but the passenger service. There they fell short, but they were shown in the balance sheets of the company. The earnings responded to its new policy, in all departments but the passenger service. There they fell short, but they were shown in the balance sheets of the company. There are they made tooking to the base of the company. The cardinate between the partments but the passenger service. There they fell short, but the passenger service to long to its new policy, in all departments but the passe

pily proposed to remedy.

In applying the romedy, we would suggest that it be not confined to a few of the fine through trains, but extend in proper measure down to the modest but well patronized local day tods. The growth of the iron and steel trade has been variable, but updepartures in practise. It provides for conclusions. This has resulted in periods when demand extended in periods to the period in proper measure down to the
description of the plan recently identified in order to the period of the and out of date, its day coaches are

RAINEY INTERESTS WILL CHANGE BEE HIVE TO MITCHELL TYPE.

Existing Ovens at Mt. Braddock and Revere Will Be Torn Down and in Their Place Mitchell Ovens Built.

THE IDLE CARS GROW.

Increase Is Noticeable in the Last Two

The bulletin of the American Rail

ada stood at 7007 an increase of ol 471 on about 199 per cent over a fortught previous. The coal car sur

plus showed enormous gains the to

tal being 40 858 against 7 100 two weeks Lefore Box cars increased from 15 854 to 20 527

Boosts Boosters'

When the Chamber of Commerce tarted out on its campaign to raise Boosters Fund—they went to the

Freete Courty Gre Company suggesting that a contribution of \$200 would be greatly appreciated. The prompt reply that the company sunt back was

sizzling with enthusiasm for the po-ject for after mentioning the \$200 the

g is compan at one boosted the Boosters Fund by a contribution of \$2.0 This is what J G Chrenfeld Superintendent of the Favotte County

C. B. Gorsuch

Superintendent

BM TIMORE Md April 29-C B

At Wheeling

Fund Heartily

Fayette Gas Co.

THE COST WILL BE BIC.

At Revere and Mt Braddock the First Changes Will Be Made, Following Way Association states that on April the Visit of Rainey Representatives 13 the total net surplus of cars on the lines of the United States and Can to the Region This Week

The visit of Roy and Paul Rainey at the head of the Rainey coke interests who came in their private carthe Signer it the coke region last week will result in one of the biggest and most cos ly changes in the physical character stics of the coke region

It is the intention of the Rames in terests to do away with the bee hive oven and substitute therefor the Mitchell rect agular push over While the Matchell over is the one selected in their extensive new operations where hundreds of overs are being built the liking for the M tehell ovens will go further and mean the taking out of several hundred evisiting bee

thre overs and the substituting for them of the Vitchell overs.

The bigue t change will be innugurated at the Revere plant of these coke interests which stand next to the H C Firek Coke Computer and are their menturies of computing and are their mignitude of equipment and production. At Revere works there are 650 of the been he type of code owens and the most of these operate steadily. Superintendent of the Favette County 5 o Comply wrote to the Chamber of Commerce He said Relative to your recent Boost resultant and the contribution of Two Hindian contribution of Two Hindian County Hindian Hindian Count Work will oon be commenced on tearing down these ovens with the re-sult that in their place will be built the rectangular push ovens which will then by drawn by the Mitchell patent cove drawer Mt Braddock will be another works

Mt Braddock will be another works where an early inauguration of the sweeping changes will take place. There are .20 bee live ovens there and 50 of the Vitchell type. The 320 ovens will be all orn down and then the plant will be made one of 770 Mitchil ovens. Other plants of the Rainey interests may tolk in this course. The innovation means the greater conservation of energy and onal and white it will be made at a second conservation. coal and while it will be made at a tremendous outlay of money and la bor the banefits the Raires officials believe to be lar greater than the expenditure involled

Washington Man Long Ago Realized Former to the Wheeling Di ion er Possipilities of Ligorier Valley
